## What Sets SCP Apart From The Rest

### SCP carries the widest selection of cables, including specialty and hard to find cables

Whether you are looking for bulk cables such as CAT5E/CAT6, Coaxial Cables, Speaker Cables, Security, Fire Alarm, Direct Burial, Structured Wiring, Specialized Control Cables such as our Crestron and Lutron Compatible Cables, or hard to find specialty cables such as CAT6A and 25 Pair CAT5E, SCP has the largest product selection in the industry.

### Specialty Bundled Cables available through SCP

- HNC-2** 2x CAT5E 24 AWG UTP + 2x RG6/U QUAD SHIELD COAX CCS- (BUNDLED)
- HNC-4** 1x CAT5E 24 AWG UTP + 1x 4C/16 AWG 65 STRAND SPEAKER CABLE (SIAMESE)
- HNC-8** 2x CAT6 23 AWG UTP + 2x RG6/U QUAD SHIELD COAX BC- (BUNDLED)
- HNC-10** 4x CAT5E 350 MHz 24 AWG UTP (BUNDLED)
- HNC-11** 4x CAT6 550 MHz 23 AWG UTP- (BUNDLED)

### SCP's Cable Labeling System

SCP makes your installation work much easier with our Cable Labeling System. Our cables come preprinted with all of the necessary information that an installer needs for the quickest, no-hassle installation.

Installers use SCP's Cable Labeling System in many ways. SCP's Cable Labeling System can be used to reduce waste, and ensure accuracy of footage when cutting cables. In addition, our sequential foot markings show you how much cable is left on a roll, allowing you to identify specific locations and runs, and more!

1. Description of the cable
2. Certifications (such as UL)
3. Sequential Foot Markings
4. ROHS designation (if applicable)
5. SCP location numbering system including Room and Outlet designations (an innovation unique to SCP cables!)

### SCP's installer Proof Boxes

SCP's bulk cables are packaged in our patented super-strong, lightweight, installer proof boxes. These boxes are made of 7mm thick double-walled, corrugated cardboard that feature a moisture-resistant exterior coating, and a large mouth payout for easy, tangle-free pulling, and a hand grip that won't rip.
