

- You can**
- customize your phone's interface to suit you
 - reorder main menu applications
 - move frequently used applications to the main menu
 - assign personal pictures as menu icons

1. To place your calculator in the main menu, press **Office Tools > Calculator > Options**.

2. Press **Move to Folder > Back to Main Menu > Place**.

Tip: To place calculator at the top of Office Tools, press **Reorder > Grab**.
Press **Up** until you get to the top of the list, and press **Insert**.

3. To assign a personal picture to a main menu icon, press **Options > Manage > Edit folder**.

Note: You can assign personal pictures to Multimedia, Office Tools, Games, Dialing Services, and folders you have created. To create a new folder in the main menu, press **Options > Create New Folder**.

4. Press **Select folder graphic > Options > Go to Pictures > Pictures > image > Save**.

Tip: To create shortcuts to main menu items you use frequently, customize the navigation keys.
From the home screen, press **Options > Customize Home > Shortcut Keys**.
